

Happy Holidays Gardeners!

We had a wonderful afternoon on Monday with lively conversations, delicious food, and a festive spirit. Coming out on a cool, wet day reminded us why we love the Mendocino Coast in the winter.

As you can see from the picture, gardeners found beautiful plants to exchange. We were delighted that some of the plants or the containers traced to earlier Garden Club days with member Ruth Sparks and the late Geraldine Pember. We all walked away with a lovely addition to our home or yard.

In typical Garden Club fashion, we worked together with ease to decorate, and clean up.

To all members, Happy Holidays and Good Health in 2022!
